### About Yoga UGo™ Founder

Susi always loved designing textiles and working with color and textures and with parents in the textile and carpet business she was surrounded by these elements from a young age. However, with the technology boom of the 1980's Susi was lured to a new type of “designing” career. Leaving her textile roots behind, Susi moved to designing technology solutions to help corporations manage their businesses.

“It is simplicity and peace that we have all come to crave and I hope Yoga Ugo™ helps to stylishly bring you both; on and off your yoga mat.”
